

Mitsubishi FX1S-30MT-001 Manual

Brand	Mitsubishi
Product Series	Mitsubishi Pepperl+Fuchs Omron
Product Type	FX1S Series Programmable Controllers

Description

FX1S-30MT-001 | Mitsubishi Electric | FX1S Series Programmable Controllers

Manufacturer: Mitsubishi Electric

Product No.: FX1S-30MT-001

Product type: FX1S Series Programmable Controllers

PLC type: FX1S

Total number of I/O channels: 30

Unit type: M = MPU - main unit

Output type: T = Transistor

Total points: 30 points.

Input points: 16 points.

Output points: 14 points.

Voltage: AC220V.

Output type: transistor.

Overall dimensions: 100*75*90.

Mitsubishi FX1S series PLC is suitable for small packages,

It is targeted at low-cost users seeking powerful control within a limited I/O range. FX1S provides more than 30 I/O points and can transmit data through serial communication. The MT model also has positioning capabilities and is widely used in various small mechanical equipment.
