

Mitsubishi FX3GA-40MR-CM Manual

Brand	Mitsubishi
Product Series	Mitsubishi Pepperl+Fuchs Omron
Product Type	MELSEC-F Standard Model

Description

FX3GA-40MR-CM Mitsubishi Electric | MELSEC-F Standard Model

Manufacturer : Mitsubishi Electric

Product No.: FX3GA-40MR-CM

Product type: MELSEC-F Standard Model

MELSEC-F Standard Model for precision control from automation to network communications with basic control functions

Power Specifications : FX3GA-40M-CM

Rated voltage : AC100 to 240V

Permissible voltage range : AC85 to 264V

Rated frequency : 50/60Hz

Allow momentary power failure time: Instant power failure below 10ms, action continues.

Power Fuses : 250V 3.15A

Inrush Current Max: 30A 5ms or less/AC100V, Maximum 50A 5ms or less/AC200V

Power Consumption : 37W

Supply power capacity : 400mA

W(mm) : 130

W1(mm) : 122

Weight : 0.70 Kg
