

Mitsubishi GT2708-STBA Manual

Brand	Mitsubishi
Product Series	Mitsubishi Pepperl+Fuchs Omron
Product Type	Advanced Graphic Operation Terminal (GOT)

Description

The GT2708-STBA is an advanced graphic operation terminal from Mitsubishi's GOT2000 series. It is suitable for use with GT27 models and features an 8.4-inch TFT color LCD.

Technical specifications for GT2708-STBA

Manufacturer Mitsubishi

Product Line GOT2000

Part Number GT2708-STBA

Weight 3.00 lbs (1.36 kg)

Device Type Advanced Graphic Operation Terminal (GOT)

Series Compatibility GOT2000 Series

Applicable Models GT27

Display Size 8.4 inches

Display Type TFT color LCD

Display Resolution 800 x 600 pixels (SVGA)

Display Colors 65,536 colors

Backlight Type LED

Touch Panel Type Analog resistive film digitizer

Panel Color Black

Memory Capacity 57 MB (ROM), 128 MB (RAM)

Description

The Mitsubishi GT2708-STBA is a sophisticated graphic operation terminal within the GOT2000 series. Specifically designed for compatibility with GT27 models, it features an 8.4-inch display that utilizes TFT technology. The GT2708-STBA terminal's screen resolution is 800 x 600 pixels, delivering clear images and information. It can display up to 65,536 distinct colors, enhancing the visual experience for operators.

LED technology provides the GT2708-STBA device's backlighting, ensuring consistent brightness and energy efficiency. Interaction with the GT2708-STBA terminal is facilitated through an analog resistive film digitizer touch panel, which allows for intuitive input methods. The panel's overall aesthetic is black, providing a professional appearance.

The GT2708-STBA terminal has substantial memory resources, including 57 MB of ROM and 128 MB of RAM, allowing for smooth operation and multitasking capabilities in various applications. The GT2708-STBA exemplifies an advanced design suitable for contemporary control and monitoring systems.
