

Mitsubishi GT27-MMR-Z Manual

Brand	Mitsubishi
Product Series	Mitsubishi Pepperl+Fuchs Omron
Product Type	Multimedia Unit

Description

The GT27-MMR-Z multimedia unit from Mitsubishi, part of the GOT2000 series, is designed for versatile video functionality. This device allows for both video input and recording and supports NTSC and PAL composite signal formats.

Technical specifications for GT27-MMR-Z

Manufacturer Mitsubishi

Product Line GOT2000

Part Number GT27-MMR-Z

Weight 10.00 lbs (4.54 kg)

Device Type Multimedia Unit

Series Compatibility GOT2000 Series

Applicable Models GT27

Functionality Enables video input and recording/playback capabilities

Input Signal Type Composite video signals (NTSC/PAL format)

Input Channels 1 channel

Recording Capability Records video to a CompactFlash (CF) card

Playback Capability Plays recorded video files from the CF card

Connector Type BNC connector for video input

Audio Input Stereo audio input via a 3.5mm mini-jack

Description

The Mitsubishi GT27-MMR-Z module is categorized as a multimedia unit and is recognized by its factory designation of GT27-MMR-Z. This device is a key component in the GOT2000 series and is specifically compatible with the GT27 model. It facilitates video recording and playback, making it a valuable tool for real-time media management.

The multimedia unit accepts composite video signals in both NTSC and PAL formats, enabling varied applications. One input channel is available for video, connected through a BNC connector, allowing seamless integration with existing video equipment. The device features a 3.5mm mini-jack for audio input, supporting stereo sound capabilities alongside the video functionality.

Recording is handled through a CompactFlash (CF) card, where video files can be stored for later playback. The GT27-MMR-Z can retrieve and play back these recordings efficiently. Weighing approximately 0.41 kg, the unit is compact and lightweight, simplifying installation while providing robust multimedia capabilities.
